Dear Sir,

Please find below a reference for Mr Mateusz Gasior.

**Re: Reference for Mr Mateusz Gasior**

Mr Gasior has recently successfully completed the MSc in Computational & Software Techniques in Engineering here at Cranfield University. This is an advanced programme for well qualified students embracing a 50% taught and 50% major project element. Mr Gasior's specialization was in Software Engineering for Technical Computing.

Mr Gasior demonstrated a thorough understanding of all the technical material presented on the course and his overall performance on the assessed examinations and practical assignments was excellent. For the thesis project he worked in the area of tool optimisation and simulation for the aero industry. This involved many aspects of the MSc and required a significant amount of software engineering and data analysis. The final implementation, presentation and report Mr Gasior delivered were all excellent, reflecting the technical ability, hard work and commitment he demonstrated throughout the year.

On a personal level, Mr Gasior mixed well with the other students and staff and was always a fully engaged and strong team member. In summary, he demonstrated himself to be a very capable student with excellent technical and organizational skills, and hence I have no hesitation in recommending him to you.

Please don't hesitate to contact me if you require further information.

Yours faithfully,

Dr Peter Sherar
